## ***CENTER OF THE UNIVERSE***

Lyrics Annika Tudeer, Juha Valkeapää

Melody Annika Tudeer

Center of the universe is yellow, flowing  
Center of the universe is slowly blowing  
Center of the universe is golden, glowing  
Center of the universe is moaning, sadly

Center of the universe is yellow, flowing  
Center of the universe is slowly blowing  
Center of the universe is golden, glowing  
Center of the universe is moaning, sadly

Sturdy presence on an ordinary street  
Stopping passers-by  
This is fun, says the little one  
Let's stay for a while

Center of the universe is yellow, flowing  
Center of the universe is slowly blowing  
Center of the universe is golden, glowing  
Center of the universe is moaning, sadly

Sun is shining sharply on a stable square  
Drilling through the air  
An oldish man is breathing silently  
Keeping pain alive

Center of the universe is yellow, flowing  
Center of the universe is slowly blowing  
Center of the universe is golden, glowing  
Center of the universe is moaning, sadly

Center of the universe is yellow, flowing  
Center of the universe is slowly blowing  
Center of the universe is golden, glowing  
Center of the universe is moaning, sadly

Keeping pain alive

## ***BEAUTIFUL PEOPLE***

Lyrics & melody Annika Tudeer

Beautiful people in a crowd  
Beautiful people talking aloud  
Beautiful people meet and greet  
Beautiful people walking down the street

Beautiful hair sways in the air  
Beautiful laughter echoes everywhere  
Beautiful people climbing the stair  
Beautiful people here and there

Beautiful people in a crowd  
Beautiful people talking aloud  
Beautiful people meet and greet  
Beautiful people walking down the street

Beautiful people talking wittily  
Beautiful people smiling intelligently  
Beautiful people pacing back and forth

Beautiful people in a crowd  
Beautiful people talking aloud  
Beautiful people meet and greet  
Beautiful people walking down the street

Beautiful people are more than me  
Beautiful people turning their back on me  
Beautiful people, beautiful people can't you see?

Beautiful people in a crowd  
Beautiful people talking aloud  
Beautiful people meet and greet  
Beautiful people walking down the street  
Beautiful people, beautiful people can't you see?

## ***THE WIND***

Lyrics & melody Juha Valkeapää

The wind is blowing  
My hair moves with the wind  
My hair stands up and raises its arms high  
My hair yells and hollers  
My hair in the wind

The wind catches my coat  
My coat wants to go with the wind  
It fluctuates  
It makes curves  
It makes subtle changes  
My coat it's gray it's blue it's green  
My coat is floating in the wind  
Flying carpet

The wind stops  
It stands still  
The surface of the water a mirror

The wind rises again  
Ripples undulates waves  
Can't see the sky anymore  
Can feel the water  
Glimmering sending rays  
Gray blue green

# **SCREW THE VOID**

Lyrics & melody Annika Tudeer

Screw the void  
Screw the void  
Fuck fuck fuck fuck fuck the void  
Screw the void  
Screw the void  
Hate hate hate hate hate the void  
Hate the fuckin' void  
Hate the fuckin' void

I am not reliable  
I am not desirable  
I am not acquirable

I am not  
Someone for your bed tonight  
Someone for a cozy sleaze  
Someone for a little tease  
Someone you can spank with text  
Someone you can think of next to youuuuu

In your golden car  
On your silver yacht  
In your chatelet, in your castle cage  
Sewing, suturing your void together with my little sticky fingers  
No

Screw the void  
Screw the void  
Fuck fuck fuck fuck fuck the void  
Screw the void  
Screw the void  
Hate hate hate hate hate the void  
Hate the fuckin' void  
Hate the fuckin' void

I am devoid of any desire  
I am nothing to acquire  
I am not going higher at all

I am the capital's worst nightmare  
Sowing closures, finance crashes and despair  
See how the stocks are falling, unfulfilled desire roaring  
Into the black hole of the void

Void void void void void  
Void void void void void  
Void void void void void

I am the void  
I am the void  
I am the void  
We are the void

## **CARE FOR SELF**

Lyrics & melody Annika Tudeer, Juha Valkeapää

Forget the miseries of the world  
Forget the dullness of your life  
Forget everything that disturbs  
Dive into darkness  
Let the magic work  
Your body and your stupid soul  
Your body and your stupid soul

Care for self  
Care for self  
Care for self  
And nothing else

Put your dirty head down  
Put your ugly head down  
Take a deep breath  
And dive into darkness  
Let the water clean you  
The dark water clean you

Clean yourself  
Clean yourself  
Clean yourself  
And nothing else

Hold your breath til your death  
Harder harder  
Pull your slick torso in  
Tighter tighter  
Squeeze your lips into a smile  
Nicer nicer

Care for self  
Care for self  
Care for self  
And nothing else
